Our new Green Line of precision grooming tools are produced of recycled stainless steel. They are made in Pakistan where the majority of labor intensive work is still done by hand. This range is ideal for the professional pet groomer or the mass consumer pet market.

Nail Cutters

Packaging

Shears and Hair Pullers

Stainless steel consists of numerous, valuable raw materials such as chromium, nickel and molybdenum. This alone makes recycling stainless steel economically viable. The overall environment benefits include:

- Minimal use of primary energy
- Saves non-renewable resources
- Reduces the waste stream
- Results in less pollution than milling virgin stainless steel.

Our professional grooming shears are of 440c Japanese stainless steel. The shears consistently maintain a Rockwell hardness of 58 to ensure longer lasting edges. They are beautifully finished in polished, blue coated, or plasma coated. Plasma coating improves the aesthetic and hardness of the scissor. We also offer a lifetime sharpening service for all our professional shears.

THINNING SHEARS
