Hemostats - Stainless

E. A. hemostats are carefully crafted from only the highest quality surgical steel, to insure a clean, high-strength pattern with positive feel and solid, play-free locking.

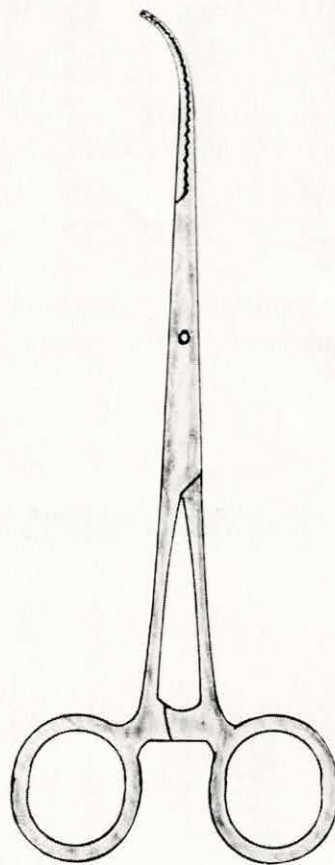

No. 70/SS HALSTEAD MOSQUITO FORCEP - A 5" straight, box lock forcep.

No. 70C/SS HALSTEAD MOSQUITO FORCEP - Same as above 70/SS, except curved.

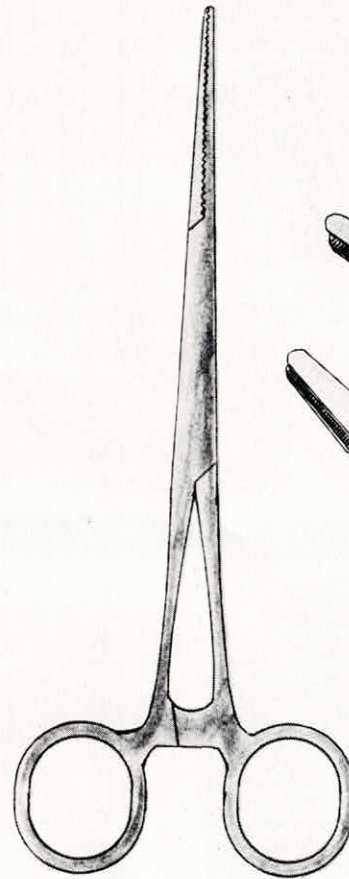

No. 64/SS KELLY HEMOSTAT - 5½" straight, box lock.

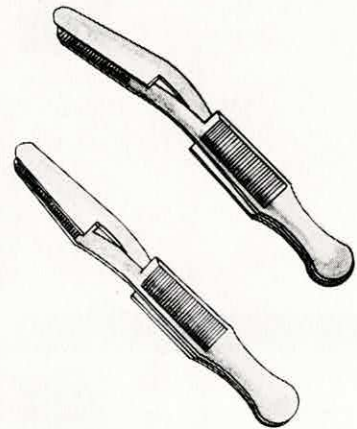

68SS

68CSS

63SS

Hemostats and Dieffenbach Clamps

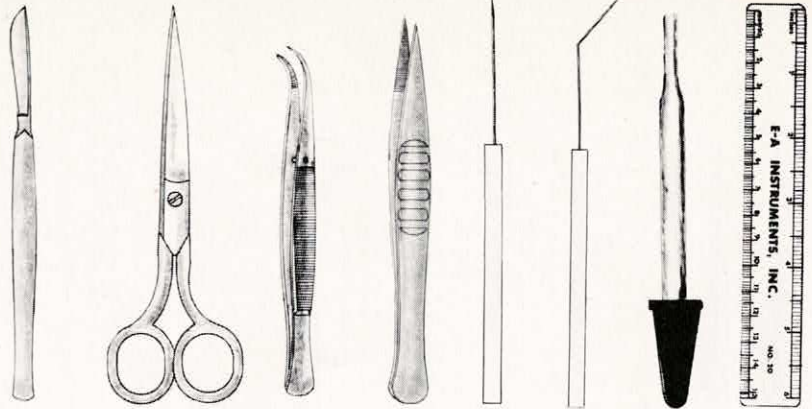

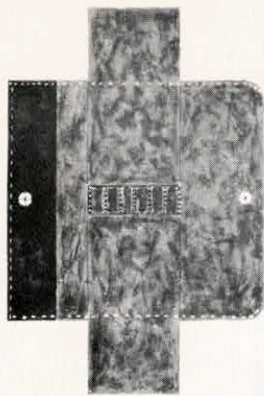

No. 68/SS KELLY-CRILE HEMOSTAT - 5½" straight, box lock.

No. 68C/SS KELLY-CRILE HEMOSTAT - Curved 5½", same as 68/SS.

No. 63/SS ROCHESTER-PEAN FORCEP - 6¼", straight forcep with box lock.

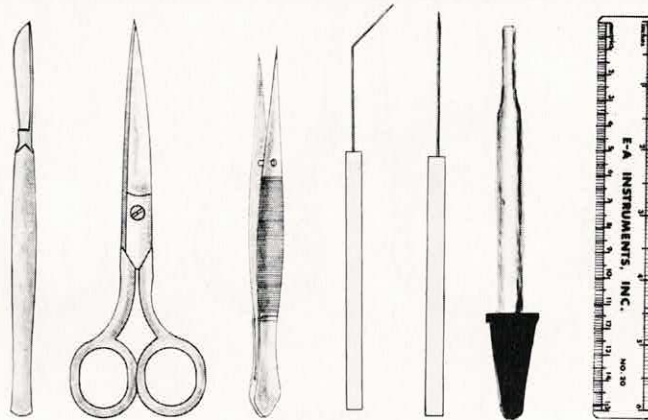

No. 67 DIEFFENBACH SERREFINE - Straight clamp, 2¼" in length. Available only in chrome.

No. 67C DIEFFENBACH SERREFINE - Curved clamp. Same as No. 67

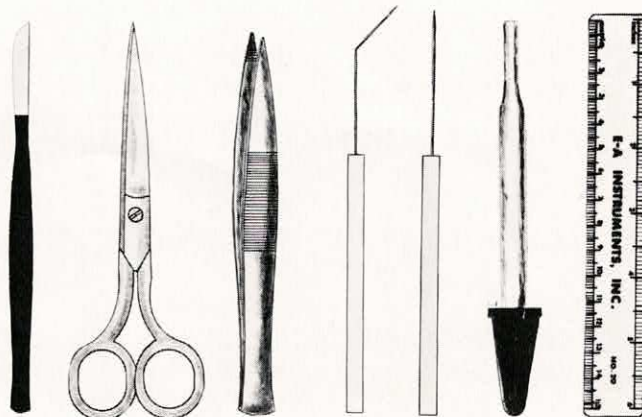

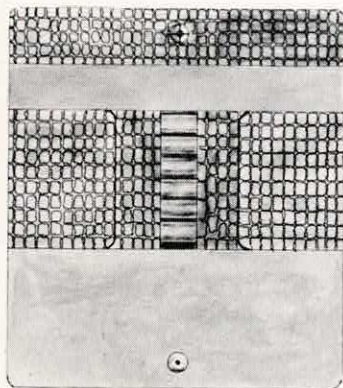

No. 1D DISSECTING SET - An excellent set used in many schools for comparative anatomy. Will stand hard usage. Set Contains:

- | | | | |
|----|---------------------------|----|------------------|
| 15 | Single Fold Case | 20 | Ruler 6" |
| 8A | Scalpel | 16 | Pipette |
| 6 | Scissor | 9 | Needle, Straight |
| 14 | Forcep, curved fine point | 9A | Needle, Curved |
| 13 | Forcep, medium point | | |

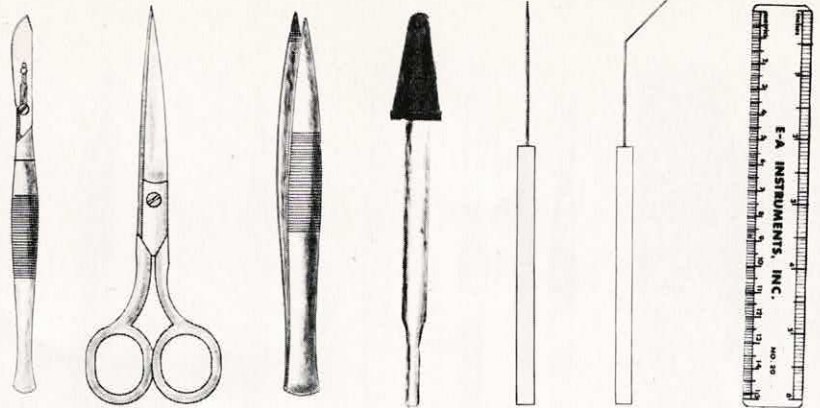

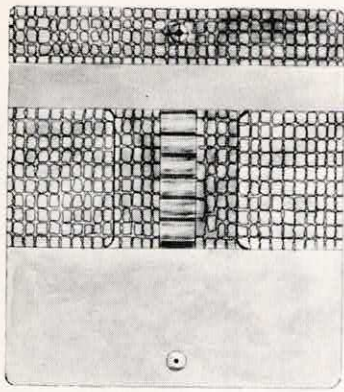

No. 2A DISSECTING SET - A popular set in the high schools and colleges, where good instruments are desired at a reasonable cost. Set contains:

- | | | | |
|----|------------------------|----|------------------|
| 15 | Single Fold Case | 9 | Needle, Straight |
| 8A | Scalpel | 9A | Needle, curved |
| 5 | Scissor | 20 | Ruler, 6" |
| 12 | Forcep, fine point 4½" | 16 | Pipette |

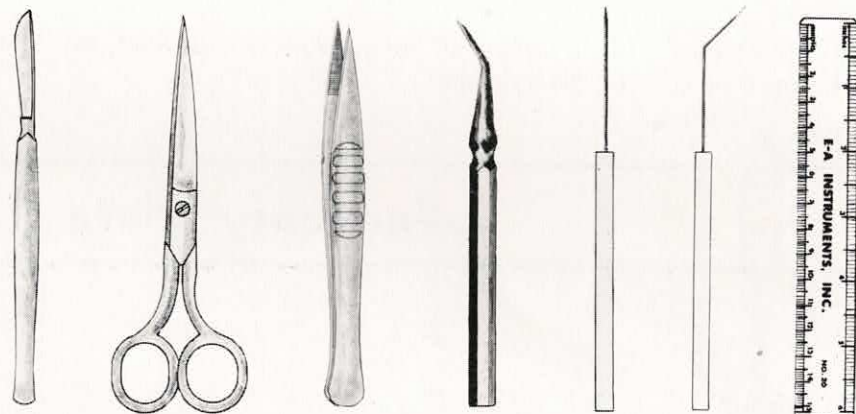

No. 3B BEGINNING DISSECTING SET - A most popular set for elementary and high school biology. An excellent value. Set contains:

- | | | | |
|-----|------------------|----|---------|
| 15A | Single Fold Case | 16 | Pipette |
|-----|------------------|----|---------|

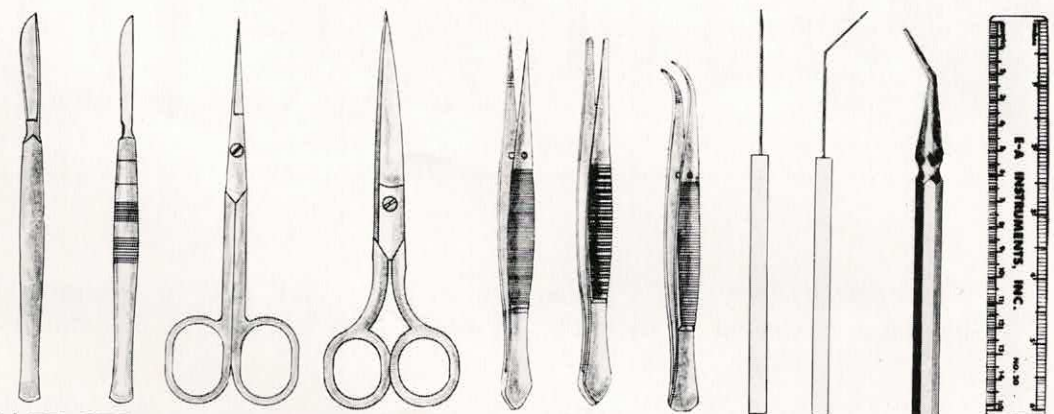

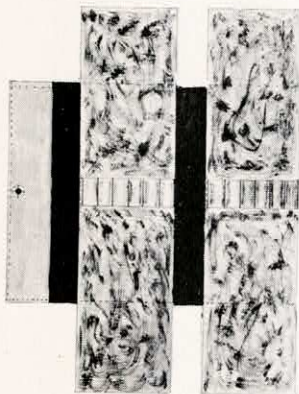

No. 3BM STUDENT DISSECTING SET - Very popular for high schools and college biology. An excellent value in a complete set for short courses. Set contains:

- | | | | |
|-----|---------------------|----|------------------|
| 15A | Single Fold Case | 16 | Pipette |
| 7MB | Replaceable Scalpel | 9 | Needle, straight |
| 5 | Scissors | 9A | Needle, curved |
| 11 | Forceps | 20 | Ruler, 6" |

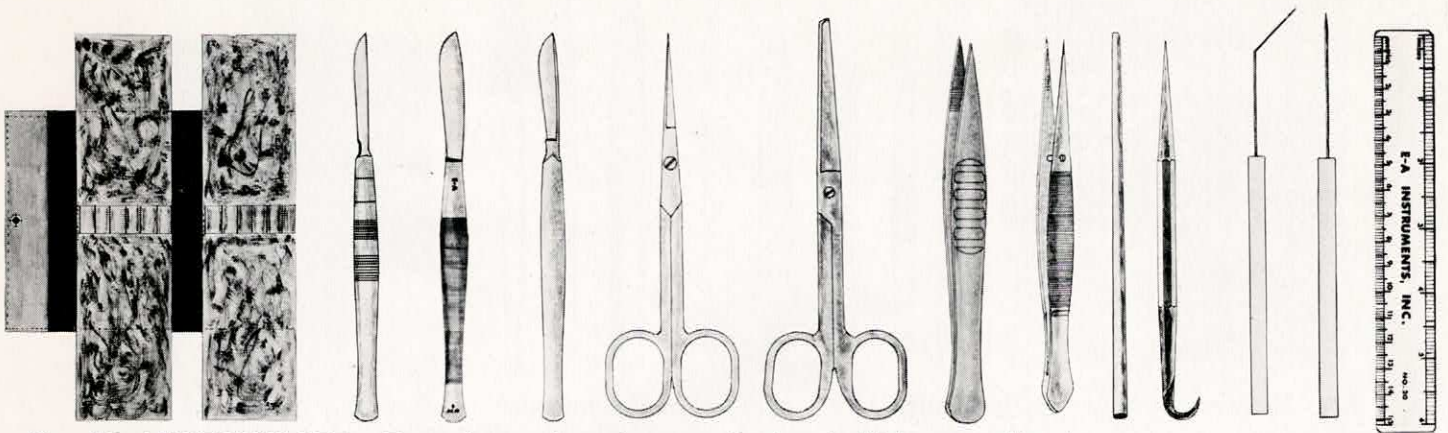

No. 4 MAJOR DISSECTING SET - Ideal for comparative anatomy and advanced biology. Contains all the essential instruments. Set contains:

- | | | | |
|----|-------------------|----|------------------|
| 15 | Single Fold Case | 9 | Needle, straight |
| 8A | Scalpel | 9A | Needle, curved |
| 6 | Scissors | 36 | Probe and Seeker |
| 13 | Forcep, cartilage | 20 | Ruler, 6" |

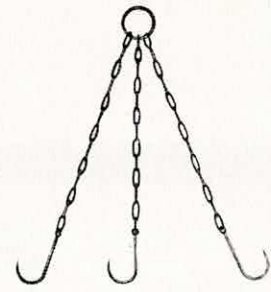

No. 55 INTERMEDIATE SET - A combination of instruments for pre-med, comparative anatomy and advanced work. Set contains the following instruments:

- | | | | |
|-----|------------------|------|-------------------------------|
| 15M | Double Fold Case | 14 | Forcep, curved fine point 4½" |
| 20 | Ruler 6" | 12M | Forcep, heavy 5" |
| 8A | Scalpel | 6MLD | Iris Scissor |

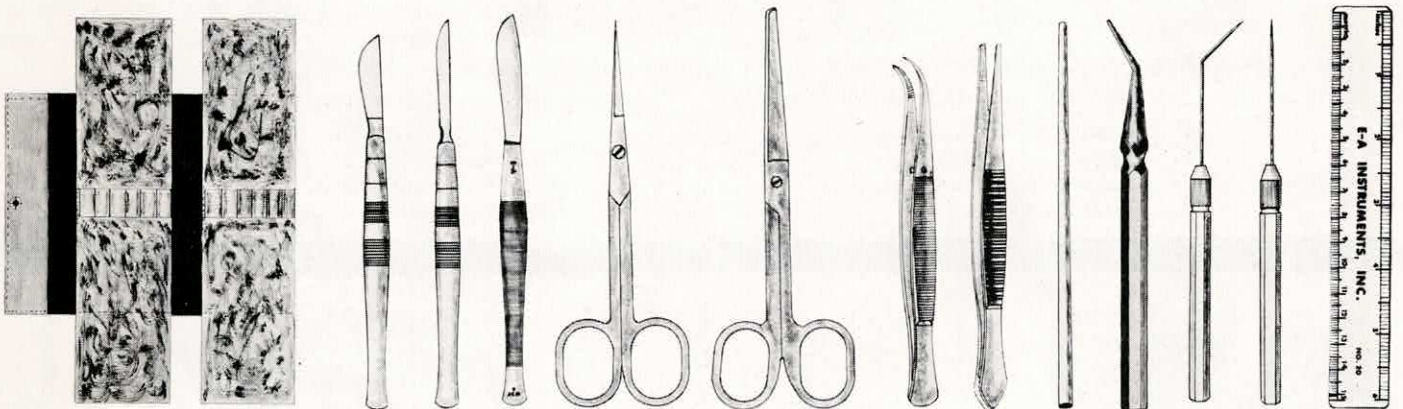

No. 50 ANATOMY SET - For advanced work or professional. Highest quality instruments, purposely selected for durability under constant usage. Set contains:

15M	Double Fold Case	6MC	Operating Scissor, 5½"	9A	Needle, Curved
8A	Scalpel	13B	Forcep, coxeter	34	Blow Pipe
8NA	Scalpel	12	Forcep, Fine Point, 4½"	32	Triple Hook and Chain
8ACM	Cartilage Knife	35	Probe and Seeker	20	Ruler, 6"
6MLD	Iris Scissor, 4½"	9	Needle, Straight		

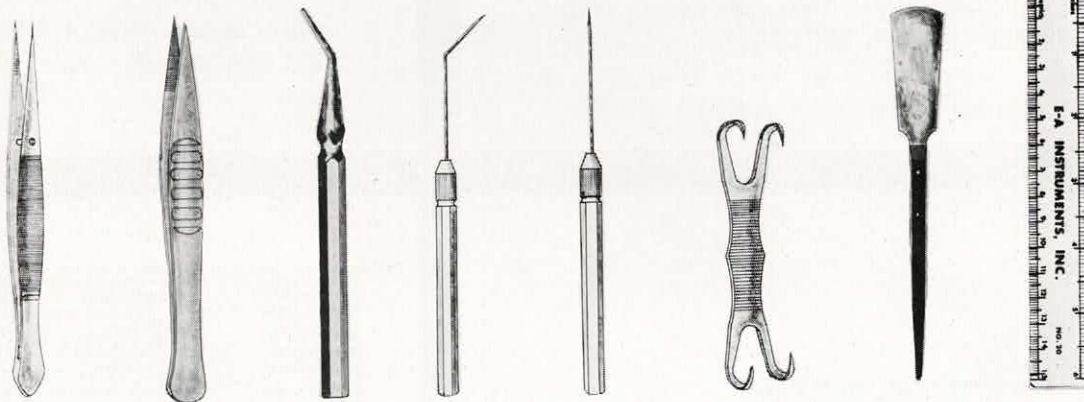

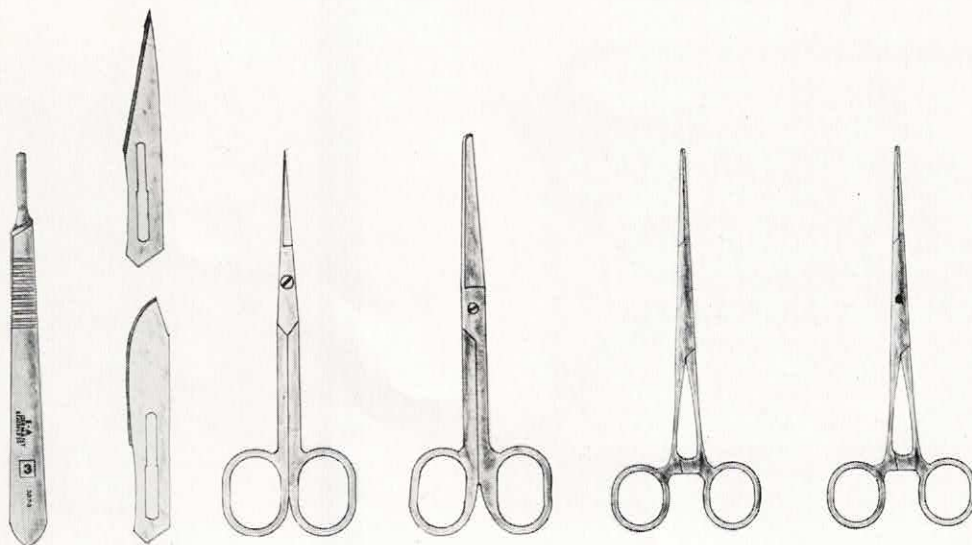

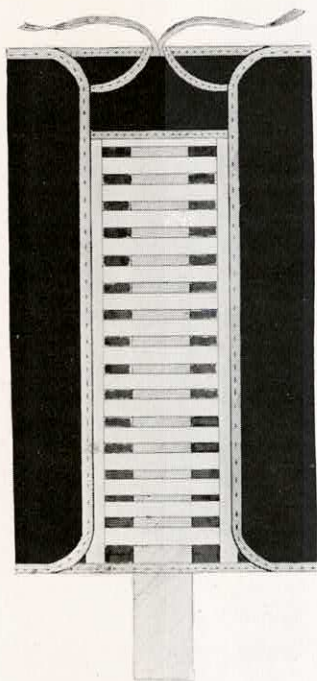

No. 50A ANATOMY SET - Same as No. 50 but without No. 20 ruler, No. 32 chain and hook, No. 34 blow pipe and No. 8NA scalpel.

Anatomy Sets

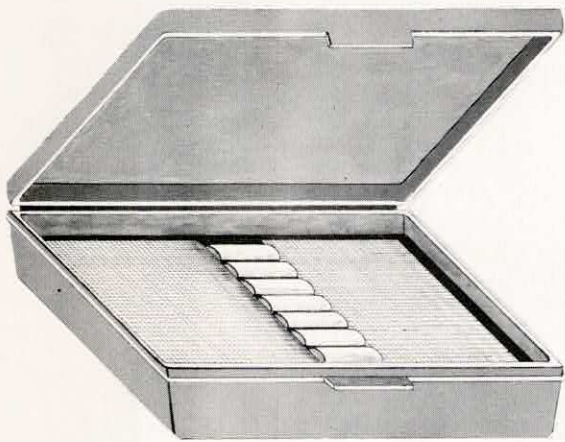

No. 60 ANATOMY SET - Recommended for medical students and serious biology students. All instruments selected for usefulness as well as there fine quality. Set contains:

15M	Double Fold Case	6MC	Operating scissor, 5½"
34	Blow Pipe	6MLD	Iris scissor
10	Metal needle (2)	36	Probe and Seeker
12M	Forcep, heavy 5"	8ACM	Cartilage knife
14	Forcep, curved fine point	8AE	Scalpel
20	Ruler, 6"	8NAE	Scalpel, narrow blade

No. 65 ANATOMY SET - A medical or nursing dissection set in canvas roll case with eighteen loops, enough for additional instruments. Set contains:

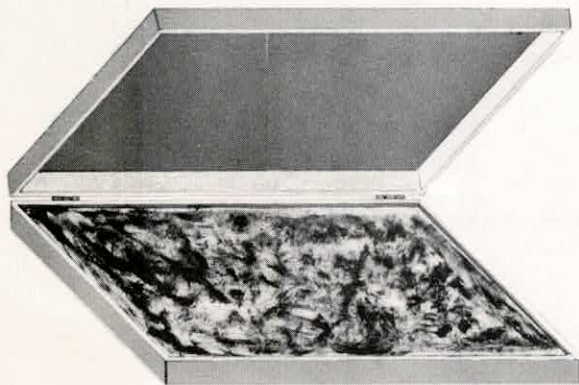

- | | | | |
|---------|----------------------|-----|--------------------------|
| 15R | Case | 36 | Probe and Seeker |
| 63/SS | Peans hemostat | 6MC | Operating scissors, 5½" |
| 64 | Kelly hemostat | 12 | Forcep, fine point |
| 307-3 | Scalpel handle | 13 | Forcep, medium point |
| 307B-10 | Blades, package of 6 | 10 | Metal teasing needle (2) |
| 307B-11 | Blades, package of 6 | 37A | Section lifter |

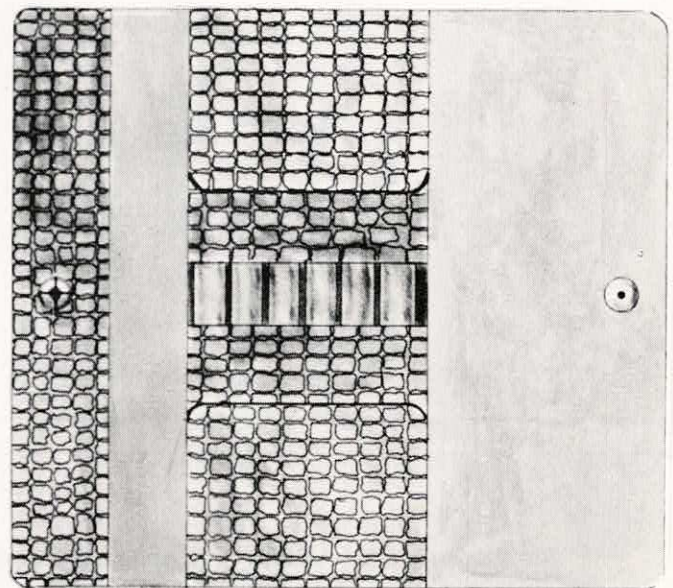

No. 278 "KOLOR KODE" CASE - Code your sets in up to four colors with our "easy find" No. 278. High impact construction, with "life-time" poly hinge. Foam padded 7 loop insert, standard base colors - Red and Green, additional colors - Yellow and Black.

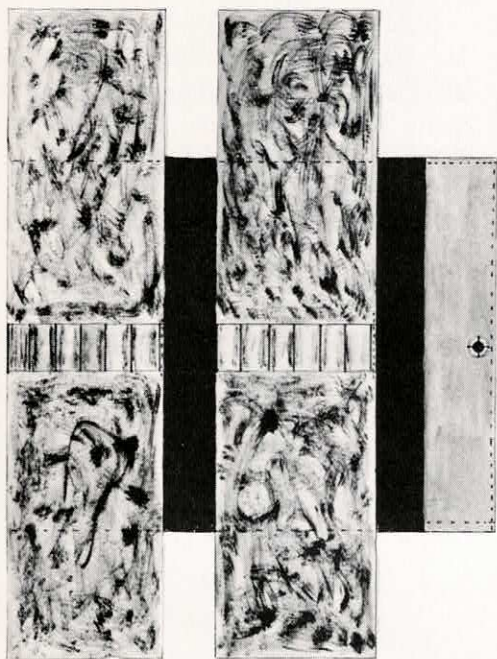

No. 15 SINGLE FOLD CASE - Black vinyl with plush suade interior. Loops for six instruments and pocket for ruler. Snap closing.

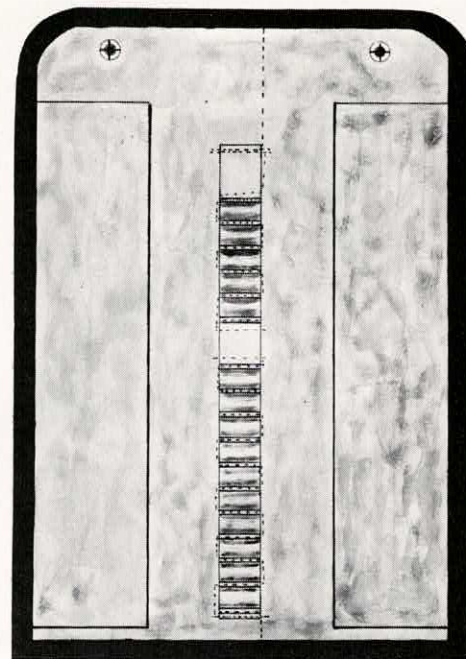

No. 15P PLASTIC CASE - Semi-transparent hinged case, snap cover, with insert for seven instruments. Attractive and re-usable.

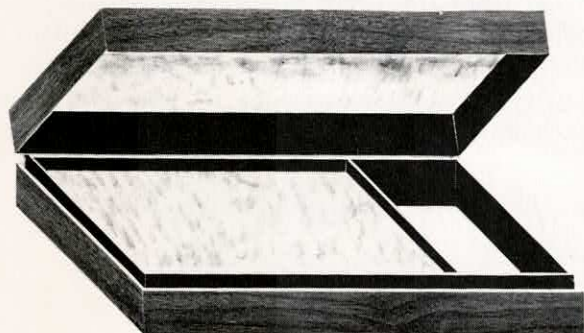

No. 15A VINYL CASE - Alligator grained, six loop single fold case with snap closing and place for ruler.

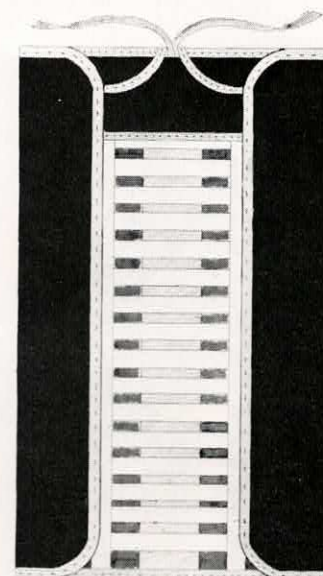

No. 15M DOUBLE FOLD CASE - Holds twelve instruments and ruler. Same as No. 15 case, but with additional six loop flap.

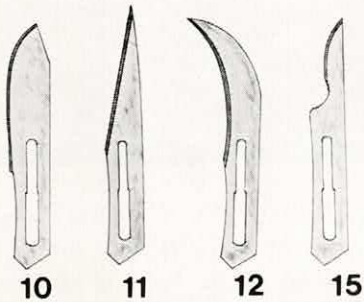

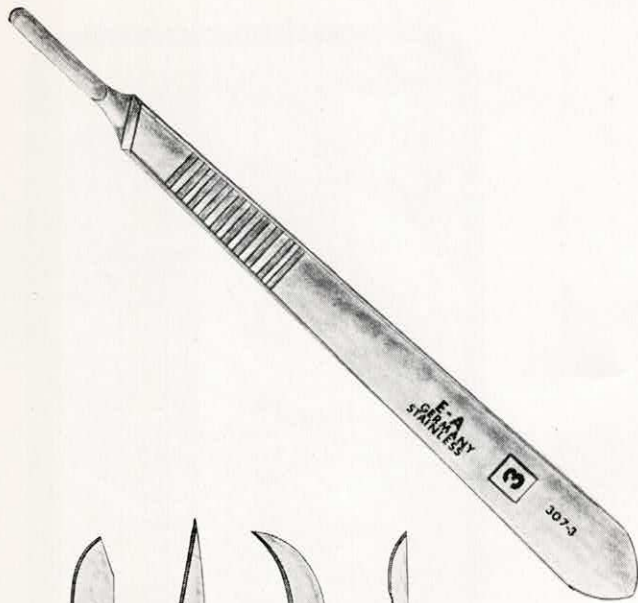

No. 15S ANATOMY CASE - This sixteen loop roll case is made of black leather and lined with soft natural suede. It is held closed with two snaps. Our highest quality instrument case.

No. 49 PREMIER CASE - Our finest hard case, featuring simulated Walnut finish and heavy duty brass clasp. Spacious 11 x 4¼ x 2" size permits a wide number of instruments in combination

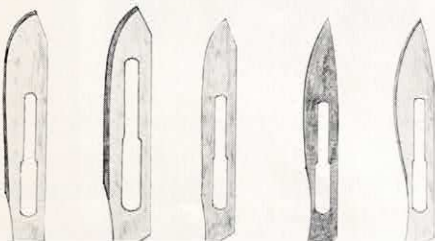

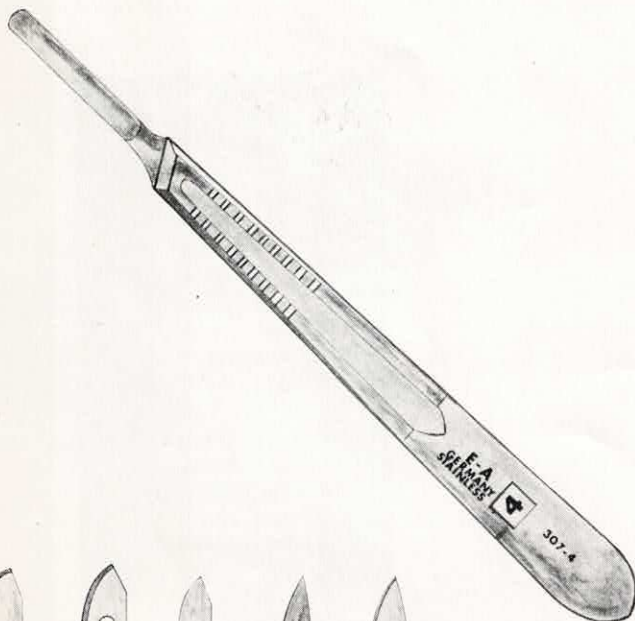

No. 15R CANVAS ROLL CASE - This case has

No. 307 SCALPEL HANDLES - Finest quality surgical scalpel handles. Made of stainless steel and manufactured to the most exacting specifications, with a brushed satin finish. The locking device holds the blade firmly and securely, yet offers the ease of interchangeability.

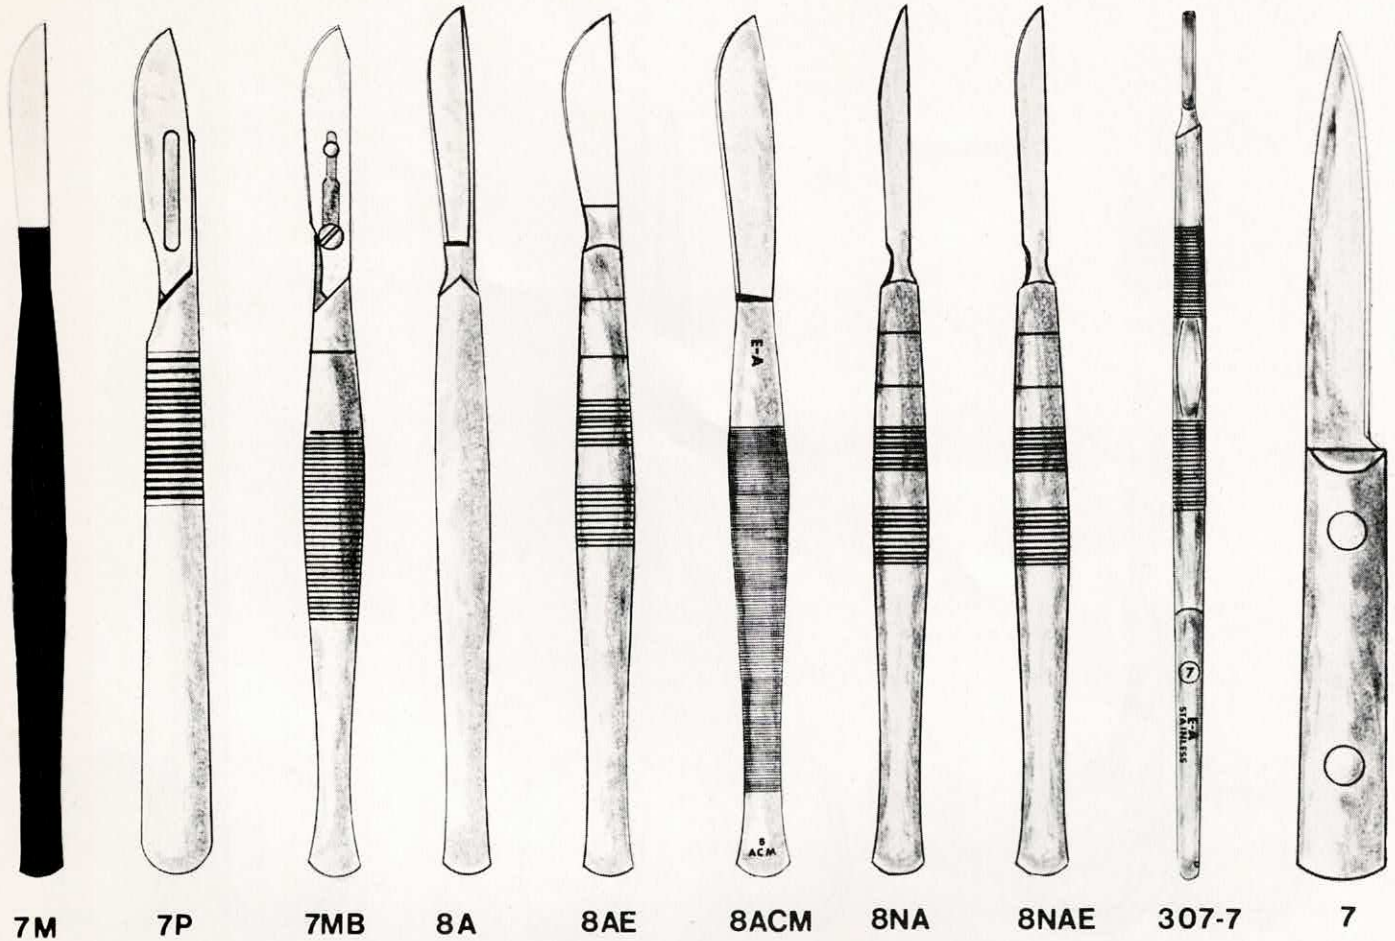

No. 307-3 HANDLE - Uses No. 307B-10, 12 and 15 blades.

Scalpels - Surgical

No. 307B SCALPEL BLADES - Our blades are made from the finest quality Swedish steel, tempered in an automatically controlled plant to comply with the latest technical achievements. Eighty years of experience in this field assure excellent cutting qualities.

No. 307-4 HANDLE - Uses No. 307B-20, 22, 23 and 24 blades.

Scalpels and Knives

No. 7M STUDENT SCALPEL - An inexpensive all steel scalpel, 1½" blade. Handle has black enamel finish.

No. 7P STUDENT SCALPEL - Stainless steel surgical blade, injection molded into gray plastic handle.

No. 7MB REPLACEABLE BLADE SCALPEL - A one piece handle with screw lock for securing No. 307B-21 blade. Nickel plated. Blade included.

No. 8A SCALPEL - One piece steel scalpel, 1½" blade. Chrome finish.

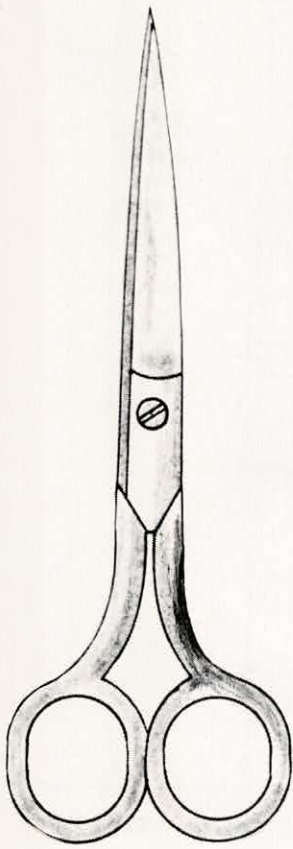

No. 8AE SCALPEL - Same as No. 8A, but with fluted handle.

No. 8ACM CARTILAGE KNIFE - A heavy one piece scalpel with 2" blade. Handle is plated with serrations to give firm grip and has scraper on end.

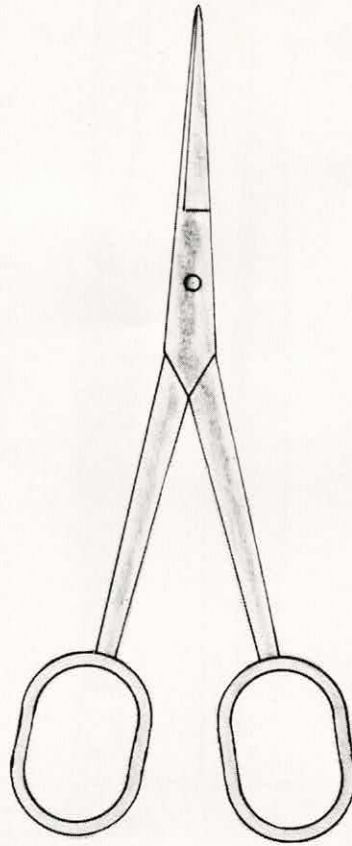

No. 8NA SCALPEL - Narrow 1½" blade on handle similar to No. 8A.

No. 307-7 SURGICAL HANDLE - A fine quality long detachable surgical handle which offers you the reach sometimes required. Use No. 307B-10, 11, 12 and 15 blades.

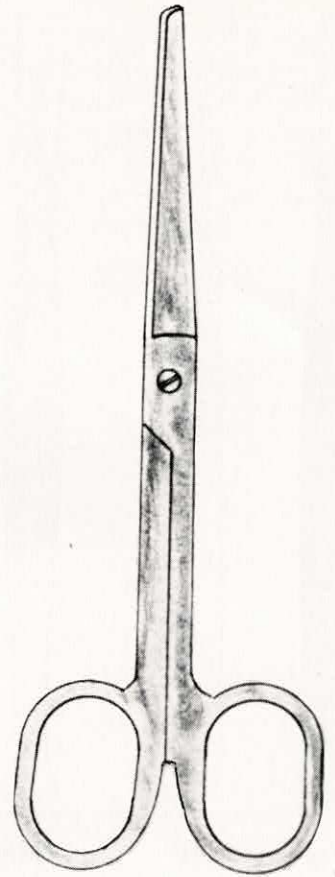

No. 7 FLESHING/CADAVER KNIFE - A one piece high carbon steel knife with 3" blade. Wood

E.A. Instruments new high impact "278" enables you to color code your kits in a durable "Easy Find" poly case at less cost than many conventional cases. The E.A. "Easy Find" system simplifies and shortens the task of identification by assigning each kit its own color.

Teachers will be able to identify a student with the wrong kit at a glance. In the bookstore, employees no longer need to search through complicated numbering systems or open kits to see what's inside, just find the color.

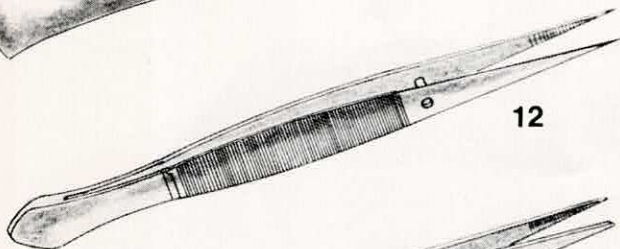

Forceps

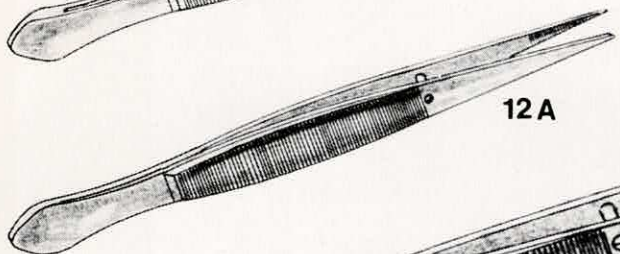

11

No. 11 FORCEP - Fine point student forceps, 4½", nickel plated.

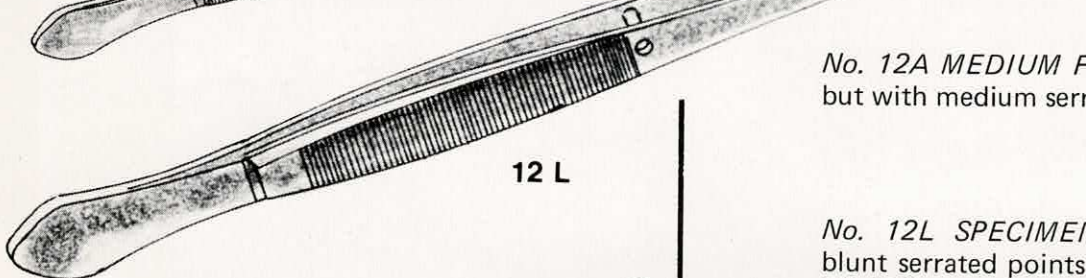

12

No. 12 FINE FORCEP - Straight with fine points. Length 4½", serrated tips, nickel plated.

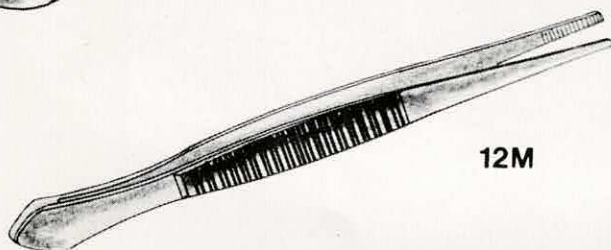

12A

No. 12A MEDIUM FORCEP - Same as above but with medium serrated tips.

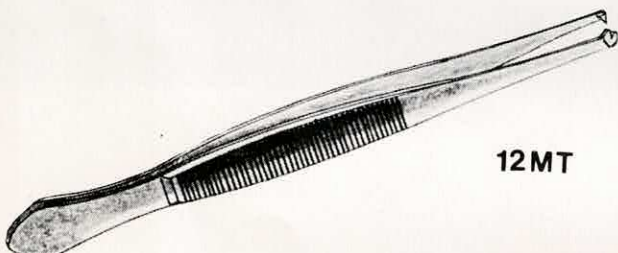

12 L

No. 12L SPECIMEN FORCEPS - Straight blunt serrated points with guide pin. Lengths 8", 10" and 12". Nickel plated.

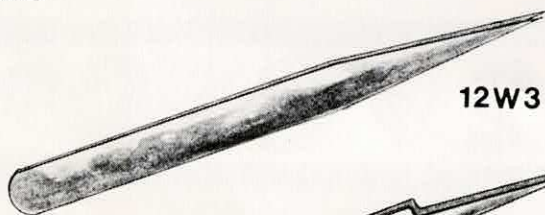

12M

No. 12M HEAVY FORCEP - Heavy, straight blunt forceps with serrated tips. Available in 5", 5½" and 6" lengths. Nickel plated.

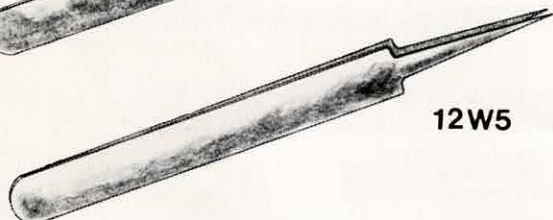

12MT

No. 12MT TISSUE FORCEPS - 1 x 2 teeth, nickel plate steel. Available in 5", 5½" and 6" lengths.

12W3

No. 12W-3 SWISS WATCHMAKERS FORCEPS - Sharp, very fine points. Forcep is 4½" long and recommended for precision work. Stainless steel.

12W5

No. 12W-5 SWISS WATCHMAKERS FORCEPS - Very fine, extra long points. Stainless steel, 4½" long forcep.

Forceps

No. 13 *CARTILAGE FORCEP* - 5½" medium points. For cartilage dissecting - a fine instrument for heavy duty work. Nickel plated.

No. 13A *CHICAGO PATTERN FORCEP*
Wide angle, for heavy pulling, 5¼" long. Nickel plated.

No. 13B *COXETER CARTILAGE FORCEP*
5" forcep with angle close to tip for added pressure. Heavy plating.

No. 14 *FINE CURVED FORCEP* - Curved point, 4½" long forcep with guide pin. Nickel plated.

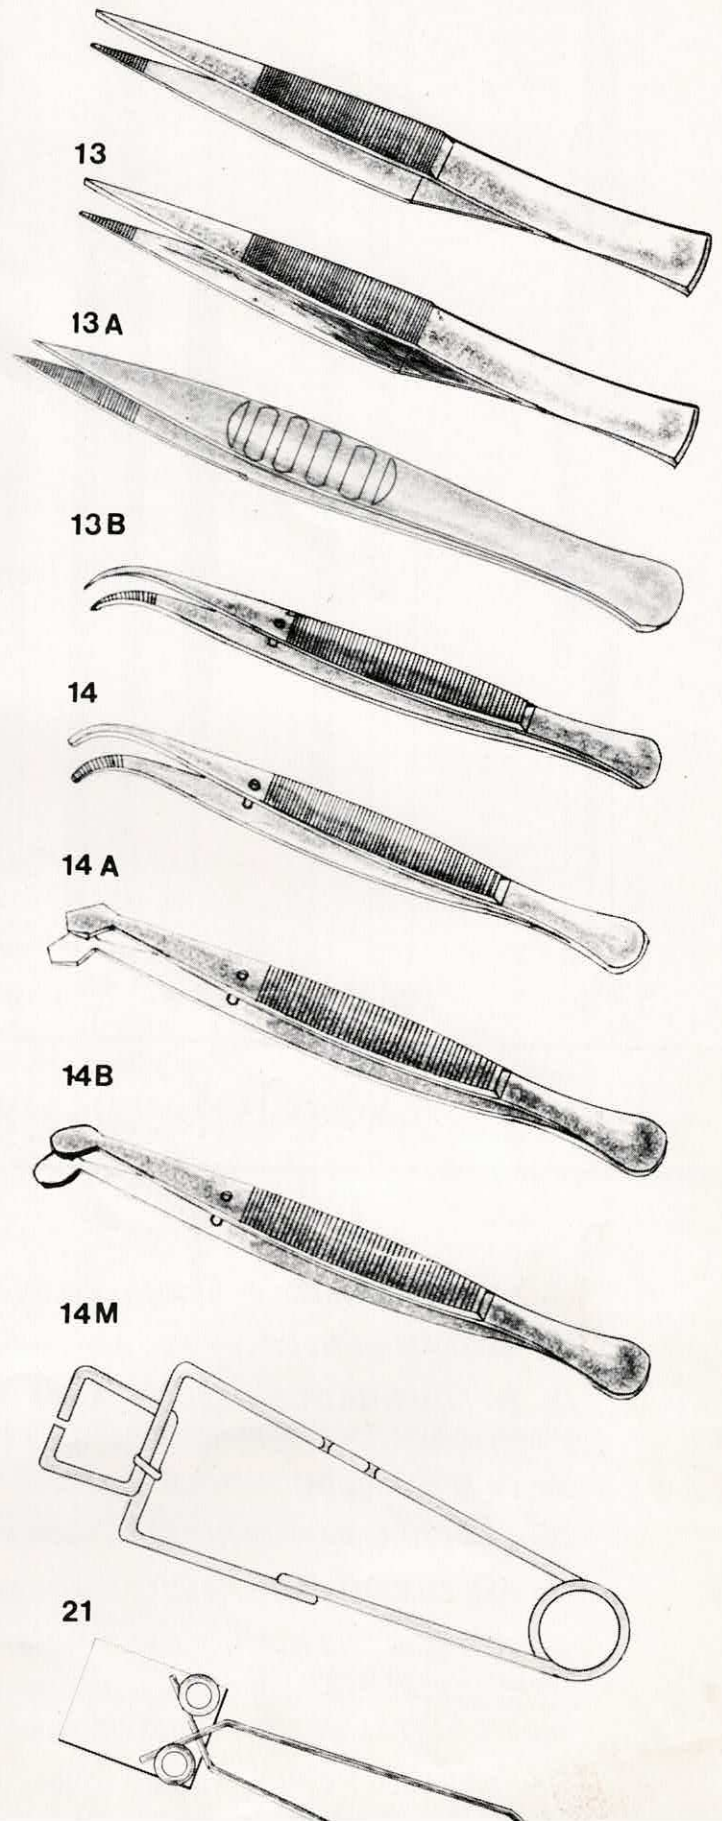

No. 14A *MEDIUM CURVED FORCEP* - Curved, medium point, 4½" forcep. Guide pin to assure points line up. Nickel plated.

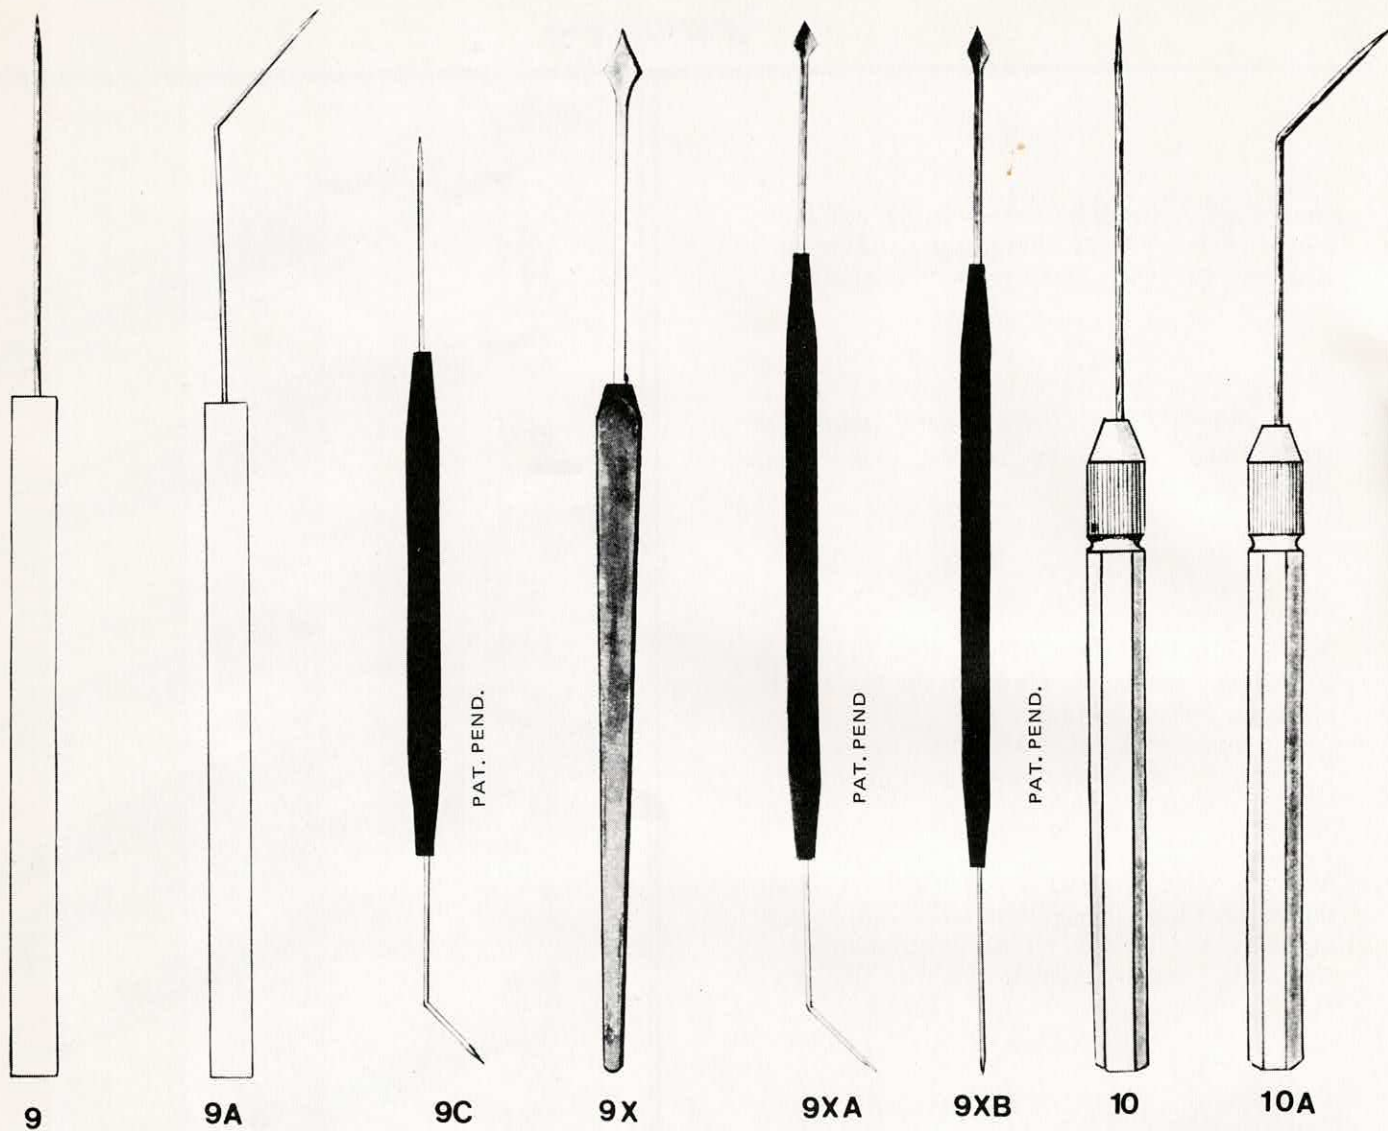

No. 14B *KUEHNE FORCEP* - Angular, flat tip cover glass forcep. 4" long, nickel plated.

No. 14M *PINNING FORCEP* - 4½" broad curved forcep. Ideal for working with insect pins. Nickel plated.

No. 21 *STEWART FORCEP* - Nickel plated 4½" cover glass forcep.

No. 22 *KIRKBRIDGE SLIDE HOLDER* -

Needles and Probes

No. 9 TEASING NEEDLE - Straight steel needle in wooden handle. 5½" long.

No. 9A TEASING NEEDLE - Bent steel needle in wooden handle. 5½" long.

No. 9C COMBINATION NEEDLE - A new concept of convenience and ease in dissecting. This combines a straight and bent needle into one highly functional instrument.

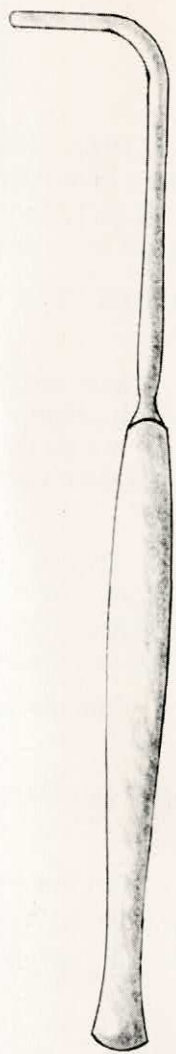

No. 9X SPEAR POINT NEEDLE - Full spear needle set deep in square dowel handle.

No. 9XA COMBINATION NEEDLE - Spear at one end and bent needle at the other.

No. 9XB COMBINATION NEEDLE - Same as above, but with straight needle instead of bent.

No. 10 METAL NEEDLE HOLDER - Hexagon metal handle with chuck. Straight steel needle included. Overall length 5¼".

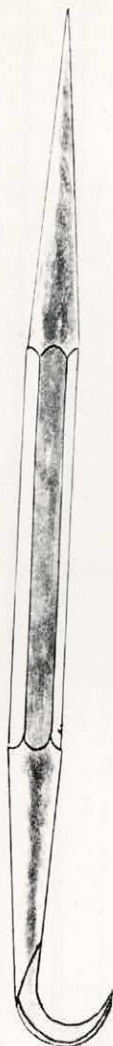

No. 10A METAL NEEDLE HOLDER - Same as above, but comes with bent needle.
